About BWWA

BWVA (BSF Wives Welfare Association) is an organization which is vigorously working towards the welfare and advancement of BSF families. BWVA besides providing innumerable benefits to its members also provides an excellent forum for meaningful and fruitful interaction. BWVA was established in the year 1992.

The BSF personnel posted across the Border of Country face complex challenges. Their prolonged deployment on the border leads to the continuous absence from home and their families, particularly the women, are left behind to deal with numerous issues.

The wives of BSF personnel have to run their families and raise their children. Most of them find it difficult to do so as there are some families in BSF who are not very educated and often don't know how to deal with a number of day to day problems. They don't know how to avail the benefits provided by Govt. BWVA is an interface between Government Institutions and wives of BSF personnel.

BWVA is a non-profitable organisation which trains and assists wives of BSF personnel in areas such as skill generation, education of children, introducing new technical knowledge to wives of BSF personnel as well as their children, career counseling, health, life style, housing for widows and sharing and resolving their problems so that wives of BSF personnel should not feel loneliness.
